

Lesbian Kisses collects together three stories, Kissing Karen, Kissing Linda and Kissing Natalie, previously published separately and available in Kindle Books. Kissing Karen: Julia and Karen, co-workers on vacation together on the Spanish coast, are bored with the beach. They visit a Greco-Roman archaeological site, where Aphrodite, the goddess of desire, inspires them to open their hearts to each other and resolve the simmering tensions of their relationship. Kissing Linda: While their husbands are on a hiking trip, Amanda and her best friend Linda are having lunch together. Their talk turns to sex; suppressed desires surface and home truths are spoken before they reach a dramatically new understanding. Kissing Natalie: Dark lesbian Charley and straight blonde Natalies friendship at uni has been strictly on an intellectual level, until one afternoon, their relationship changes dramatically.
