

Toby's mum sure was right when she told him his grandfather would love to see him "in the flesh!" Toby's adoptive mother is going to New York on business while he is on break from college. She can't take him along, so she arranges for him to spend the summer in his grandfather's Spanish villa. He's never met the old man and is worried Grandad might not like him, but as it turns out, that summer marks the beginning of their wonderful relationship... Toby and Grandad hit it off, and more. It begins when Toby asks to read one of Grandad's books, which turns out to be gay porn. Much to Toby's surprise, Grandad suggests that they do what the male characters in the book do. Grandad opens Toby's eyes to gay sex...and love. They love each other so much that it pains Toby to leave him when summer ends. A miserable Toby returns to college, where not even sex with his roommate can make him happy. He can't wait for Christmas to come around so he can visit Grandad again... *For adults only.

Contains graphic sex scenes between men, including oral sex, anal sex, 69 and threesome. SAMPLE 1: His right arm was on my thigh as his hand took hold of the shaft of my cock and began moving it up and down as before. Holding it firmly but not too tight, he moved the soft skin up and down over the muscle that it covered while he kept on sucking me. I couldn't help but give out a groan at the pleasure I was getting, of his tongue stroking the bare flesh, his hand moving up and down on my shaft. For a moment, I wondered why he changed hands. I soon found out; as he shifted his body a little, his free hand gave me a pleasant shock as it cupped my balls and started moving them around in their little bag. This evinced another groan from me at this new pleasure he was giving me as that hand gently squeezed each one in turn, giving them something like a massage. With this extra erotic sensation, my body started to react and he must have felt my body tensing up for he gripped my cock tighter and began moving his hand faster, not slowing down in his sucking. My hips started lifting themselves up to technically fuck his face as I felt the first surge of my sperm move up and erupt into his hot mouth. My clenched fist beat a tattoo on the bed as more of my seed was ejected out of the eye to join the first salvo. I let go at least another three if not four before I felt completely drained in all of my senses at that wonderful feeling of lassitude, as my body relaxed from the pleasure I had just been given by grandad. SAMPLE 2: He was on his hands and knees, well I should say forearms for he was leaning the top half of his body right down so that his shoulders were touching the bed. This position made his bum stick right up in the air. I quickly got in between his legs, my cock bouncing about so much that I had to hold it to be able to hit the target that I'd creamed ready. Doing as I'd been told before, I took it slow and watched the head slowly disappear and then felt the heat and his muscle trying to grip me, but with the cream, it was unable to stop me from carrying on and had my cock slide nicely up into his ass. There wasn't a grunt this time, only a big sigh when my thighs came up tight to the cheeks of his bum. For some reason I had been holding my breath as I entered him and now let it out and took another deep breath as I began to move myself inside his canal.
